Christine,

Submit an Analytical Request Form (ARF), for the single sample, and a DAS number will be issued for Tier IV analysis.

Subject: Single sample for TPH analysis

Good Morning Jarmael,

We are ordering clean backfill for an area of the Shiloh Church Road Site. For this, we need to collect one sample from the source location to be analyzed for TPH. No QA/QC is necessary for this.

Would it be possible to get approval for Tier IV analysis for this? This is a single inexpensive sample. I thought this might save your team some valuable time if we do not need to arrange CLP

Let me know your thoughts
Thank you
Chris
